

ENERGY STAR® Application for Certification

78

ENERGY STAR ® Score¹

100 Summer Street

Registry Name: 100 Summer Street

Property Type: Office

Gross Floor Area (ft2): 1,164,826

Built: 1974

For Year Ending: 07/31/2016²

Date Application Becomes Ineligible: 11/28/2016

The ENERGY STAR Spore is pased on total source energy. A score of TS is the minimum to be eligible for the ENERGY STAR.
 Applications must be submitted to EP4 within 120 days of the lear Ending Date. The award is not final until approval is received from EP4.

Please use the <u>Licensed Professional's Guide to the ENERGY STAR</u> ® for Commercial <u>Buildings</u> for reference in completing this checklist (http://www.energystar.gov/lpguide).

1. Review of Whole Property Characteristics

Basic Property Information		
Property Name for Registry: 100 Summer Street Is this the official name to be displayed in the Registry of ENERGY STAR Certified Buildings and Plants?	Yes	□No
If "No", please specify: 2) Property Type: Office Is this an accurate description of the primary use of this property?	Yes	□No

3) Location: 100 Summer Street Boston, Massachusetts 02110 Is this correct and complete?	Yes	□No
4) Gross Floor Area: 1,164,826 ft² Does this represent the entire property? (i.e., no part of the building/property was excluded/subtracted from the total) If "no" please specify what space has been excluded.	Yes	□No
5) Average Occupancy: (b) (4) Is this occupancy accurate for the entire 12 month period being assessed?	Yes	□No
6) Number of Buildings: 1 Does this number accurately represent all structures?	Yes	□No
Notes:		

Indoor Environmental Standards		
Ventilation for Acceptable Indoor Air Quality Does this property meet the minimum ventilation rates according to ANSI/ASHRAE Standard 62.1, Ventilation for Acceptable Indoor Air Quality?	∀ Yes	□No
2) Acceptable Thermal Environmental Conditions Does this property meet acceptable thermal environmental conditions according to ANSI/ASHRAE Standard 55, Thermal Environmental Conditions for Human Occupancy?	Yes	□No
3) Adequate Illumination Does this property meet the minimum illumination levels as recommended by the Illuminating Engineering Society of North America (IESNA) Lighting Handbook?	Yes	□No
Notes:		

Tracking Number: APP-20160824-3-1119497 Generated On: 08/24/2016

EPA Form 5900-197

2. Review of Property Use Details

Office: Offices		
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.		
★ 1) Gross Floor Area : 842,438	,	
Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.	Yes	No
★ 2) Weekly Operating Hours: (b) (4)	7	
Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the HVAC system is starting up or shutting down, or when property is occupied only by maintenance, security, cleaning staff, or other support personnel. For properties with a schedule that varies during the year, use the schedule most often followed.	Yes	No
☆ 3) Number of Workers on Main Shift.(b) (4)	,	
Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.	√ Yes	□No
★ 4) Number of Computers: (b) (4)	7	
Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.	V Yes	□No
	,	
Is this the total percentage of the property that can be heated by mechanical equipment?	Yes	☐ No
☆ 6) Percent That Can Be Cooled: (b) (4)	/	
Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.	√Yes	□No

Notes:		

Parking: Parking Garage This Use Detail is used to calculate the 1-100 ENERGY STAR Score.		
★ 1) Open Parking Lot Size: 0 ft²		
Is this the total area that is lit and used for parking vehicles? Open Parking Lot Size refers specifically to open area, which may include small shading covers but does not include any full structures with roofs. Parking lot size may include the area of parking spots, lanes, and driveways.	√Yes	□No
☆ 2) Partially Enclosed Parking Garage Size: 0 ft²		
Is this the total area of parking structures that are partially enclosed? This includes parking garages where each level is covered at the top, but the walls are partially or fully open.	√Yes	□No
☆ 3) Completely Enclosed Parking Garage Size: 21,580 ft²	/	
Is this the total area of parking structures that are completely enclosed on all four sides and have a roof? This includes underground parking or fully enclosed parking on the first few stories of a building.	Yes	□No
★ 4) Supplemental Heating: No		
Does the parking garage have a heating system to pre-heat ventilation air and/or maintain a minimum temperature during winter months?	 Yes	□No
Notes:		

Other: Loading Dock		
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.		
★ 1) Gross Floor Area: 3,599	/	
Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s)	∀ Yes	□No

such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.

5. Signatory Agreement

I hereby nominate the above described property for award of the ENERGY STAR. I have provided a copy of the Licensed Professionals Guide to the ENERGY STAR for Commercial Buildings to our Licensed Professional (LP) for reference. As documented by the above checklist, this property meets the conditions necessary to qualify as ENERGY STAR. I am submitting this application within four months of the Year Ending Date (July 31, 2016) used to generate the application. I will assist EPA, if requested, in verifying any data included in this application. Furthermore, I agree to associate the ENERGY STAR logo only with this property and to adhere to the ENERGY STAR Identity Guidelines.

Signature (must be a direct employee of the building owner/manager):

Date: 8-24-

Signatory Name: Wayne Talbot

Property Owner: Equity Office

The government estimates the average time needed to fill but this form is 6 hours, includes the time for entering energy data. Licensed Professional facility inspection, and notarizing the SEP) and welcomes suggestions for reducing this level of effort. Send comments ineferencing DNB control numbers to the Director Collection Strategies Division, U.S. EPA 2322T1 1200 Pennsylvania Ave. NVV Washington, D.O. 20460.
